HI!

I'm a passionate Software Developer who loves solving problems and building useful software. I have experience of 3.5 years in software development, cloud services, and different programming languages. I enjoy learning new things and working with others to create solutions that make a difference.

WORK EXPERIENCE

May 2022 - Present (2.5 years)

Software Developer at Svea Bank AB

- Innovated and launched a dashboard for Svea private customers to streamline invoice management and payment processing, resulting in over 2M euros in transactions this year.
- Developed a web app for internal staff to enhance customer information management. With some features were reducing manual work by over 100 hours on average.
- Created an invoicing solution for efficient payment reminders with one-click functionality.

May 2021 - May 2022 (1 year)

Junior Software Developer at Altoros Oy

- Developed and maintained the company website using Wordpress and Elementor to increse traffic more than 2x in 2 months.
- Managed the company's marketing efforts to increase brand awareness and engagement in the Finnish market.
- Worked on a Photo Portal app, utilizing modern technologies to ensure seamless functionality and improve user satisfaction. Implemented new features and optimized performance.

March 2021 - May 2021 (3 months)

Thesis work at TrueMed

- Researched and implemented blockchain technology to combat counterfeit medicine at TrueMed in Helsinki, Finland.
- Utilized augmented reality and camera visuals to develop a system for spotting counterfeit products.
